

**Additional Impacts at Louisiana Equestrian Estates**  
Tutterow, Brian W. to: Donna Mullins

10/06/2010 12:02 PM

---

Donna,

I've included these figures in the reports but wanted to give you a heads up as it appears there was some additional work down between 2009 and 2010 on the creek located to the west of the Estates. Figure 7 shows the impacted stream reach. Based on observations in the field at GPS 60 and 61 it looks like all those white lines crossing the creek from east to west are drainage cuts across the creek and into a north/south ditch.
